

Five

Prague 5 Smíchov, Na Valentince 4

The Five project takes pride of place as a new landmark in the central part of Smíchov in Prague 5. Its modern design respects the history of the former tram depot, while preserving the original elements on the facade, which gives the building a unique and unforgettable exterior. Both the interiors and the facade are equipped with the latest technologies regarding environmental protection. Five offers a casual approach to interior design, enabling the creation of a more efficient and diverse work environment within easy reach of the city centre. In addition, the upper floors of the building offer fascinating views of Vyšehrad and Prague Castle. There are also 143 parking spaces in underground garages for tenants.
