

Aerohouse

Prague 8 Karlín, Šaldova 12

The administrative building **Aerohouse** is a great example of the integration of the historic industrial spirit of the Karlín area with modern technologies and architecture. The original five-story functionalist building with a basement, built in 1933, was used for repairing sports cars and manufacturing aircraft parts. After a sensitive extension in 2014-2015, which added dignity and a unique connection with modern technologies to the building, Aerohouse offers tenants unique commercial and office spaces. In total, the building has five floors and underground spaces. Thanks to its excellent location in a quiet part of Karlín, Aerohouse provides an ideal environment for work and living.

Currently available office spaces:

1st floor, offices 423 m² (total area including add-on 454 m²)

Rental price:

Offices 424 CZK/sqm/month

Charges 160 CZK/sqm/month incl. VAT (as a prepayment for services and personal consumption, reconcilable annually)
